

SHERIN M

ASPIRING DATA ANALYST

Nagercoil, India | +91 8056910027 | sheryafrith@gmail.com

OBJECTIVE

Motivated and detail-oriented Computer Science graduate with strong analytical and problem-solving skills. Proficient in Python, SQL, Excel, and basic front-end technologies. Seeking an entry-level Data Analyst role to apply data analysis, data management, and report generation skills in a dynamic environment.

SKILLS

SQL | Python | Java | HTML | MS Excel | MS Word | PowerPoint
Report Generation | Data Management | Data Mining | Internet Research

EDUCATION

M.Sc. in Computer Science — Muslim Arts College of Arts and Science Percentage: 89%	2019 - 2021
B.Sc. in Computer Science — Muslim Arts College of Arts and Science Percentage: 78%	2016 - 2019
Higher Secondary Education — Amala Convent Girls Higher Secondary School Percentage: 78.58%	2015 - 2016

PROJECTS

Image Retrieval from Large-Scale Database using SVM-Based Decision Tree - Analyzed shape, color, and texture features to enhance image search accuracy. - Integrated Support Vector Machines with decision trees for efficient retrieval performance. - Achieved faster and more accurate image searches in large-scale databases using a machine learning-driven approach.	2019 - 2020
Optimized Digital Watermarking Algorithm in Wavelet Domain for Color Images - Developed a robust watermarking technique resistant to image attacks. - Applied optimized wavelet transforms to improve security and quality. - Ensured image authenticity and copyright protection using optimized multi-level wavelet transforms.	2020 - 2021

STRENGTHS

- Analytical Thinking — strong problem-solving mindset.
- Effective Communication — excellent communication and teamwork abilities.
- Team Collaboration — contributed to a 20% improvement in data quality through effective collaboration.

LANGUAGES

Tamil (Native) | English (Proficient) | Malayalam (Advanced) | Urdu (Beginner)

INTERESTS

- Data-Driven Storytelling — passionate about transforming data into compelling stories that drive decision-making and strategy.
- Continuous Learning — committed to enhancing data analysis skills through courses, workshops, and self-study.
